Mandatory Technical Requirements in the EAEU

The system of technical regulation of the EAEU aims to carry out coordinated policy in the field of technical regulation and establish common mandatory requirements for products at the EAEU territory.

In accordance with the Article 52 of the Treaty on the EAEU[1] mandatory requirements in EAEU are applied only to the goods covered by the Single List of Goods Subject to Mandatory Requirements[2].

In order to ensure the safety of human life and health, property, environment, animal and plant life and health, prevent actions misleading consumers, ensure energy efficiency and resource saving for the abovementioned Single List of Goods in EAEU are established technical regulations.

Texts of the EAEU technical regulations in force are published at the official web-site of the Eurasian Economic Commission[3]. In order to fulfill the requirements of these technical regulations and conduct assessment procedures both national producers and exporters may apply international, regional or national standards enlisted in relevant technical regulation of EAEU on a voluntary base.

As of May 2025 52 EAEU technical regulations have been developed and adopted, 48 of which has already came into force. Moreover 10 more technical regulations have been drafted – until they enter into force EAEU Member States apply national mandatory requirements for relevant products. In this regard currently EAEU technical regulations cover 85% products traded in the EAEU market.

For implementation of the EAEU technical regulations in the EAEU territory basic documents are approved in the sphere of conformity assessment, including unified forms of conformity assessment (confirmation) documents[4], standard schemes of conformity assessment (confirmation)[5] and an its application practice.

الزامات فنی اجباری در اتحادیه اقتصادی اوراسیا (EAEU)

نظام مقررات فنی اتحادیه اقتصادی اوراسیا (EAEU) با هدف اجرای یک سیاست هماهنگ در حوزه مقررات‌گذاری فنی و ایجاد الزامات اجباری مشترک برای محصولات در قلمرو اتحادیه طراحی شده است.

بر اساس ماده ۵۲ معاهده اتحادیه اقتصادی اوراسیا، الزامات اجباری در EAEU فقط در مورد کالاهایی اعمال می‌شود که در «فهرست واحد کالاهای مشمول الزامات اجباری» قرار دارند.

به‌منظور تضمین ایمنی جان و سلامت انسان، حفظ اموال، حفاظت از محیط زیست، سلامت حیوانات و گیاهان، جلوگیری از فریب مصرف‌کنندگان، و همچنین ارتقای بهره‌وری انرژی و صرفه‌جویی در منابع، برای کالاهای مندرج در این فهرست واحد، مقررات فنی در سطح EAEU تدوین و اعمال شده است.

متون مقررات فنی لازم‌الاجرای EAEU در وب‌سایت رسمی کمیسیون اقتصادی اوراسیا منتشر می‌شود. برای انطباق با الزامات این مقررات فنی و انجام فرآیندهای ارزیابی انطباق، تولیدکنندگان داخلی و همچنین صادرکنندگان می‌توانند به‌صورت داوطلبانه از استانداردهای بین‌المللی، منطقه‌ای یا ملی مندرج در مقررات فنی مربوطه EAEU استفاده کنند.

تا ماه مه ۲۰۲۵، در مجموع ۵۲ مقرره فنی EAEU تدوین و تصویب شده است که ۴۸ مورد از آن‌ها لازم‌الاجرا شده‌اند. علاوه بر این، ۱۰ مقرره فنی دیگر نیز در مرحله پیش‌نویس قرار دارند؛ تا زمان لازم‌الاجرا شدن آن‌ها، کشورهای عضو EAEU الزامات اجباری ملی خود را برای محصولات مربوطه اعمال می‌کنند. در حال حاضر، مقررات فنی EAEU حدود ۸۵٪ از کالاهای مبادله‌شده در بازار EAEU را پوشش می‌دهند.

به‌منظور اجرای مقررات فنی EAEU در قلمرو این اتحادیه، اسناد پایه‌ای در حوزه ارزیابی انطباق تصویب شده‌اند که شامل فرم‌های یکپارچه اسناد ارزیابی (تأیید) انطباق، طرح‌های استاندارد ارزیابی (تأیید) انطباق و رویه‌های کاربردی مربوطه می‌باشند.
